Note: Refer to the C50 Owner’s Manual page 9 for additional connection information.

Connection Legend:
- Data Cable* - Digital Signal Cable
- Sensor/Keypad Cable - RS232 Cable
- Power Control Cable* - Ground Wire
- Audio Signal Cable - AC Power Cords
- Video Signal Cable - Loudspeaker Cable
- RF Signal Cable

* 2 conductor shielded with 1/8 inch stereo mini phone plug on each end.
Connect the C50 power cord to a live AC outlet. Refer to information on the back panel of your C50 to determine the correct voltage for your unit.

**Pass-Thru Power Control Input** receives turn On/Off signals from an Audio/Video Control Center.

**Power Control** MAIN Output sends turn On/Off signals to a McIntosh Component when the C50 is switched On/Off.

**Power Control Output** 1 and 2 send turn On/Off signals to a Power Amplifier(s) when activated.

**Power Control** and TO allows an external signal processor to be connected.

**Record Out** sends signals to the input of a recording device.

**Gnd terminals** accept a ground wire from a turntable.

**Phono MC** accepts the low level signals from a Moving Magnet Phono Cartridge.

**Phono MM** accepts signals from a Moving Magnet Phono Cartridge.

**SRVR, AUX, DVD, CD2, CD and Tuner Inputs** accept high level program source signals.

**Main Outputs** send high level program source signals to Power Amplifiers.

**Main Outputs** BALANCED send signals to Power Amplifiers and are switched On/Off with the Front Panel Output 1 and 2 Push-Buttons or Remote Control Push-Buttons.

**Balanced Outputs** 1 and 2 send signals to Power Amplifiers and are switched On/Off with the Front Panel Output 1 and 2 Push-Buttons or Remote Control Push-Buttons.

**Balanced Inputs** 1 and 2 accept high level program source signals.

**Balanced Inputs** send signals to Power Amplifiers and are switched On/Off with the Front Panel Output 1 and 2 Push-Buttons or Remote Control Push-Buttons.

**Balanced Inputs** send signals to Power Amplifiers and are switched On/Off with the Front Panel Output 1 and 2 Push-Buttons or Remote Control Push-Buttons.

**Connect the C50 power cord to a live AC outlet.** Refer to information on the back panel of your C50 to determine the correct voltage for your unit.
