The MC501 Monoblock Power Amplifier has been designed to meet the expectations of the most demanding audiophile. Delegating an individual amplifier to each speaker eliminates any chance of interaction between channels and expanding into multi-channel formats is as easy as adding additional amplifiers.

Quad-Differential Circuitry, exclusive to McIntosh, reduces noise and distortion to their lowest possible level. While the MC501 delivers a massive 500 watts continuous power into 2, 4 or 8-Ohms and over 1200 watts of peak power into low impedances, its noise levels are 124dB below rated output. This means that the MC501 combines super-high power with record-low levels of noise…nearly an impossible combination!

The MC501 has a bold look yet is unmistakably a McIntosh. It features a 2-dimensional glass front panel containing a large peak-responding true-wattmeter, all illuminated with cool running, ultra long-life LED fiber-optic lighting. The chassis gleams in polished stainless steel and vertically mounted connectors at the back make attaching cables easier and takes up less shelf space. Both unbalanced and balanced inputs are provided along with three sets of huge, gold-plated speaker binding posts for high-performance speaker cables.

“flawless audiophile performance and a design with the future in mind”

Quad Balanced Design
Exclusive McIntosh Power Assurance System
High Output Current Capability
Wide Bandwidth
Fiber-Optic Illuminated 3D Glass Front Panel
MC501  MONOBLOCK POWER AMPLIFIER

EXCLUSIVE MCINTOSH POWER ASSURANCE SYSTEM
A collection of technologies that enhance performance and reliability while protecting the amplifier and loudspeakers.

POWER GUARD®
A waveform comparison circuit continuously monitors both input and output signals. Power Guard dynamically adjusts the input level to avoid clipping while preventing harsh sounding distortion.

SENTRY MONITOR®
Fuse-less short-circuit protection circuit disengages the output stage before current exceeds safe operating level – resets automatically.

OUTPUT AUTOFORMER®
Unique McIntosh technology delivers the full rated amplifier output with the least possible distortion into loudspeaker impedances of 2, 4, or 8 Ohms; you get all the power you paid for and the freedom to choose any loudspeaker.

WATTMETER
Swift, accurate response reveals program peaks so staying within the power limits of your loudspeakers is easy.

FOR THE CONSUMER’S PROTECTION
In order to ensure the highest level of customer satisfaction, “new” McIntosh products may only be purchased over-the-counter or delivered and installed by an Authorized McIntosh Dealer.

McIntosh products that are purchased over the Internet, by phone or mail order are presumed to be “used” and do not qualify for any McIntosh Warranty. McIntosh does not warrant, in any way, products that are purchased from anyone who is not an Authorized Dealer or products that have had their serial number altered or defaced.

To experience the legendary performance of McIntosh, please call on us at 1-800-538-6576

www.mcintoshlabs.com

FREQUENCY RESPONSE
+0, -0.25dB from 20Hz to 20kHz
+0, -3dB from 10Hz to 100kHz

TOTAL HARMONIC DISTORTION
0.005% maximum at any level from 250mW to rated power output.

INTERMODULATION DISTORTION
SMpte 0.005% maximum if instantaneous peak output does not exceed twice the output rating.

A-WEIGHTED SIGNAL-TO-NOISE RATIO
Unbalanced and Balanced: 97dB
(124dB below rated output)

RMS POWER OUTPUT
500W minimum sine wave continuous average power output from 20Hz to 20kHz.

INPUT IMPEDANCE
10,000 Ohms (unbalanced)
20,000 Ohms (balanced)

INPUT SENSITIVITY
2.1 Volts unbalanced, 4.2 Volts balanced

WIDE BAND DAMPING FACTOR
100 @ 8-Ohms

DYNAMIC HEADROOM
1.8dB

RATED POWER BAND
20Hz to 20kHz

POWER GUARD®
Clipping is prevented and THD does not exceed 2% with up to 14dB overdrive at 1kHz.

POWER REQUIREMENTS
120V 50/60Hz, 6.6A

OVERALL DIMENSIONS (H x W x D)
9-7/16” (22.86cm) x 17-1/2” (44.45cm) x 14-13/16” (37.62cm) including front panel and knobs.

WEIGHT
91.5 lbs. (41.6 kg) net
105.5 lbs. (48 kg) boxed

ADDITIONAL SPECIFICATION
DC Failure Protection
Thermal Sensors
Turn-on Delay
Soft Start Inrush Protection
Balanced and Unbalanced Inputs
Remote Power Control
Massive Gold Plated Output Binding Posts
Stainless Steel Chassis w/ Super Mirror Finish
